China Stamp Society Specialized Catalog of China to 1949

Author:

Publisher: The China Stamp Society, Inc., 2016

It is a 520-page, full color, specialized listing for Imperial issues of 1878 through the Republic issues of 1949. Originally built upon Ma, it goes much further with thousands of specialized listings of varieties and previously unlisted stamps. Historical and explanatory text has been added to tell "who, what, when, where, and why" information. Rate tables are included to give meaning to the changing face values due to inflation. The Preface includes an explanation of the presentation to guide in the use of the catalog. It includes a Glossary of terms and abbreviations used and tables showing the relevant Chinese characters. The Appendix includes a new Overprint and Surcharge Identification Guide, an extensive Bibliography of other publications cited, and a Cross-Reference to additional material in Chiu's Supplement. It also has a section on Non-Stamps with listings of the Imperial and Republic Official Postal Seals and Postal Savings stamps. Imperial issues include the Large and Small Dragons, the Empress Dowager Commemoratives, the Small and Large Figure Surcharges, the Red Revenue Surcharges, the Lithographed Imperial Chinese Post, and the Chinese Imperial Post. Included are sections on Early Republic Issues, Wartime Issues, and the Inflationary Period Issues (Chinese National Currency issues, Gold Yuan issues, and Silver Yuan issues). Special Purpose issues include Airmails, Domestic Express and Registered Mail stamps, Postage Dues, Parcel Post stamps, Military Post stamps and Stamp Booklets. Province issues include Kirin & Heilungkiang, Kwangsi and Kweichow, Northeastern Provinces, Sinkiang, Szechwan, Taiwan, Tibet, and Yunnan. The Japanese Occupation section includes maps, historical information and much introductory material. It includes all of the occupation issues and overprints, and the stamps of Manchukuo. It has a new section on the Official Postal Seals of Manchukuo. For membership information see www.ChinaStampSociety.org

Dead Countries of the Nineteenth and Twentieth Centuries

Author: Les Harding

In its most precise definition, a "dead country" is a place that once issued postage stamps but no longer does. Harding has used this definition as a basis for a fascinating investigation of world history. Collected in Dead Countries of the Nineteenth and Twentieth Centuries is a telling portrait of global change.

Publisher: Scarecrow Press, 1998

The book is organized as a series of entries for each dead country, arranged alphabetically under fifteen broad geographical headings. These short entries provide wonderfully detailed summaries of the history of the dead countries that fill in gaps and expose the hidden histories of many geographic locations throughout the world. The entries not only detail the creation and makeup of the dead country, but most importantly, describe the significant historical factors that caused its disappearance. Countries that have fractured politically or been absorbed into larger conglomerations are also included as dead countries.

Each entry begins with a literary epigraph that offers a fresh way of thinking about the area in question. Also included is essential reference information such as area (in both square miles and square kilometers), capital city, estimated population, and an illustration of the region's postage stamp that provides a visual reference of the culture. Included at the end of each entry is a list of references that contain additional sources of information.

Encyclopedia of United States Stamps and Stamp Collecting

Author:

Publisher: Kirk House
Publishers, 2006

The Encyclopedia of United States Stamps and Stamp Collecting, introduces the collector to the full scope of United States stamps and stamp collecting. Beginning with an introduction to; stampless covers; (letters mailed before the introduction of postage stamps), it then introduces the many stamps issued from their inception with the 1845 Postmasters' Provisionals through the stamps of the early 21st century. Other chapters deal with the host of stamps known to collectors as; back-of-the-book; issues, including stamps issued for air mail, special delivery, U.S. possessions, revenue purposes, and postal stationery. The history of the Postal Service and the various stamp printers, including the Bureau of Engraving and Printing is explored.

A section of the Encyclopedia highlights the technological innovations of stamp production, the history of the movement of the mails, markings applied to envelopes, and meters and machine generated postage. While a book about U.S. stamps and stamp collecting, in a larger sense it is a history of American politics, culture, values and technology seen through the prism of the nation's postage stamps and postal service.

Each of the sixty-two chapters employs a similar format, wherein an introductory article is followed by practical tips on collecting; an almanac of chronological dates to orient the reader within each historical era; a selection of quotes, both contemporaneous and modern, to provide context; examples of postal usage; and a compilation of references to which the reader can turn for more information.

While the Encyclopedia will be welcomed by many advanced stamp collectors, it was written with the beginning collector in mind. It assumes no prior experience with collecting, and includes a comprehensive glossary of philatelic terms. The full color, hard-bound, 730 page book is generously illustrated with stamps, covers and related material.

Author: James E. Kloetzel

Publisher: Scott Publishing Company, 2009

The 23,000 value changes recorded in Volume 4 are spread across a variety of countries. A thorough review of the listings in Korea resulted in more than 6,000 value changes. More than 1,200 were recorded for North Korea with increases of 20 percent or more for the earlier issues. Other countries with a large number of changes include Mali (1,635), Niger (1,586), Malagasy Republic (1,132), Mauritania (1,002), Mauritius (983), Jordan (648) and Lithuania (528).

The 30,000 value changes recorded in Volume 1 are spread among a number of countries including the United States, Argentina, Australia and Australian States, Brazil, Bulgaria and French Andorra. More than 4,200 value changes were made in the United States, U.S. possessions and United Nations sections. Startling increases can be found for many rare stamp varieties that are lettered minors. Activity was heavy for several South American countries. In Argentina, 4,221 value changes were recorded, with most appearing in the postage section. More than 4,000 value changes were recorded in Brazil. The very first set, Scott 1-3 increased substantially. In fact almost all the sets and singles have a change in either the unused or used column.

Publisher: Scott Publishing Company/Amos Hobby Publishing Co, 2010

The 2011 edition of the Scott Standard Postage Stamp Catalogue Volume 2 includes countries of the world C-F. Value activity was robust with more than 30,000 changes. Leading the way was the People's Republic of China with more 7,000 changes. Other countries showing a high number of value changes are Colombia (3,101), French Offices Abroad (2,263), Canada (2,120), Chile (1,496) and Ethiopia (1,003). In the People's Republic of China, early issues show generally modest increases in value. The startling increases appear in the late 1950s and early 1960s and the Cultural Revolution era.

Publisher: Scott Publishing Company/Amos Hobby Publishing Co, 2010

Thousands of value changes were recorded in Volume 3 of the 2011 Scott Standard Postage Stamp Catalogue, which includes listings and values for Countries of the World G-I. Ireland is the country with most value changes recorded with more than 3,600. Value increases in the stamps of Ireland are spread throughout the listings, and some are significant. The 1922 Provisional Government 2sh6p-10sh high-value overprints, Scott 36-38, show definite upward strength. Scott 36 moves to \$325 unused, \$550 mint never hinged and \$450 used for 2011, from \$200 unused, \$400 mint never hinged and \$325 used in last year's Volume 3. Other countries with significant changes include Ghana, Gibraltar, Greece, Grenada, Hungary, India, Iran and Iraq. Editorial enhancements include the addition of new lettered minor varieties in 21 countries and the appearance of several new major numbers for Guadeloupe and the Feudatory States of India.

Paraguay, New Caledonia, Oman, the Philippines, Qatar and El Salvador are just a few of the hundreds of countries with notable value activity recorded in Volume 5, which now includes listings for countries of the world N-Samoa. In Paraguay more than 3,200 changes were recorded. Limited supply for many of the issues pushed values up for stamps beginning in 1880s and continuing to the early 1960s. In New Caledonia significant increases can be found starting with the very first issue and running through stamps issued through the 1960s.

Scott Specialized Catalogue of United States Stamps & Covers 2011

Author:

There are more than 8,000 value changes in the 2011 edition of the Scott U.S. Specialized Catalogue. Overshadowing the value changes this year are the addition of three new sections in the catalogue. The three new sections are Scott Stamp Values, U.S. Registry Exchange Labels of 1883-1911 and U.S. Stamps Used in the Confederacy. Many collectors no doubt are familiar with the Scott publication Scott Stamp Values: U.S. Specialized by Grade. Previously, this information was provided in a separate 50-page booklet. This information has now been incorporated into the Specialized bringing all Scott valuing information for the United States stamps into one volume. This new catalogue section lists values of the more expensive U.S. stamps in eight different grades, from Very Good to Superb. The addition of this new section adds more than 30,00 additional value points to the volume.

United States Postal History Sampler (Linn's handbook series)

Author: Richard B. Graham

The book is an introduction to many different U.S. postal history topics. It consists of 15 chapters based on approximately 60 Linn's columns created by Graham between 1982 and 1991. Corrections and updates published in subsequent Linn's columns have been incorporated into the text where appropriate. Some of the topics covered include train wreck covers, fancy cancels, APO markings, campaign covers, flag cancels, InteleX markings, Dead Letter Office markings, early railroad markings, factured first-day covers, free franks, advertising covers and Navy ship post office markings.

Since its publication in 1997, Griffith's United States Stamps 1922-26 has become the definitive reference work on these issues. Not only does it cover the stamps and their production, but the political background that led to the stamps' issue.

Publisher: Linns Stamp News, 1997

Illustrated with 135 black-and-white photographs in addition to the stamp illustrations.

A continuing volume, United States Stamps 1927-32, published by Linn's in 2001, completes the study of all the stamps issued during the administrations of presidents Harding, Coolidge, and Hoover.

Paperback 400

Both volumes are frequently cited by scholars, expertizers and leading auction firms, and are a must for any serious philatelic library.

United States Stamps, 1927-32

Author: Gary Griffith

Continuing Griffith's previous volume, United States Stamps 1922-26, this book treats the remainder of the stamps published during the administrations of presidents Harding, Coolidge, and Hoover.

Publisher: Linns Stamp News, 2001

Since their publication, the Griffith books have become the definitive study of the stamps of this period, and treat the political reasons for their issue as well as the stamp production and varieties.

Airmail collectors will also find interest in the historical treatment of the trans-continental route, contract air mail, and the Lindbergh flight and subsequent developments in transporting mail.

A must for any serious philatelic library.

Who's Who on U.S. Stamps

Author: Richard Louis Thomas

Contains capsule biographies of every person portrayed on a U.S. stamp between 1847 and 1990. Some of the more than 400 alphabetically arranged biographies are so obscure that even encyclopedias fail to mention them. Each biography is illustrated with the appropriate stamp in this reference book.
